#### **Qualys Announces First Quarter 2020 Financial Results**

#### Revenue Growth of 14.5% Year-Over-Year GAAP EPS: \$0.46; Non-GAAP EPS: \$0.65 Announces Additional \$100 Million 2-Year Share Repurchase Program

**Foster City, Calif., – May 7, 2020** – Qualys, Inc. (NASDAQ: QLYS), a pioneer and leading provider of cloud-based IT, security and compliance solutions, today announced financial results for the first quarter ended March 31, 2020. For the quarter, the Company reported revenues of \$86.3 million, net income under United States Generally Accepted Accounting Principles ("U.S. GAAP") of \$18.7 million, non-GAAP net income of \$26.7 million, Adjusted EBITDA of \$38.2 million, GAAP earnings per diluted share of \$0.46, and non-GAAP earnings per diluted share of \$0.65.

"We are pleased to report another good quarter with accelerated growth in Qualys Cloud Agent subscriptions and strong adoption of our Vulnerability Management, Detection and Response (VMDR) app. Our results reflect the strategic importance of our robust cloud platform for continuously securing and monitoring hybrid environments and remote workforces as well as the expansion of our product suite including our innovative VMDR app," said Philippe Courtot, chairman and CEO of Qualys. "We are pleased with our business momentum with both renewals and upsells performing well. Our groundbreaking VMDR application is seeing strong customer reception with nearly 150 customers already subscribed to it. VMDR not only helps proliferate Clouds Agents within our customer base but also sets a strong foundation for further upsell of our other paid applications. In addition, we are seeing a great response to our free remote endpoint protection offering with nearly 500 customers signed up for the service. We will also be extending the free service period for existing customers to enable them to trial the malware detection and response capabilities that we will be adding shortly."

"In these challenging times, we are uniquely positioned with our profitable cloud platform model as companies accelerate their adoption of cloud-based solutions. This enables us to continue investing and recruiting for top talent as well as assist the community with fast development of free services. Furthermore, I am also pleased to announce our Board has authorized an additional 2-year \$100 million open market share repurchase program, which reflects our belief in our cloud model to continue growing shareholder value as well as provides us with the opportunity to take advantage of any potential significant stock market dislocation," continued Courtot.

#### **Financial Performance Outlook**

Based on information as of today, May 7, 2020, Qualys is issuing the following financial guidance for the second quarter and full year fiscal 2020. The Company emphasizes that the guidance is subject to various important cautionary factors referenced in the section entitled "Legal Notice Regarding Forward-Looking Statements" below, including risks and uncertainties associated with the COVID-19 pandemic. While we believe we are in a strong financial position to weather business uncertainties arising from COVID-19, some of our customers are now operating under very challenging circumstances, especially those in industries highly affected by COVID-19. As

such, the second quarter and updated full year fiscal 2020 guidance that we are providing today assumes increased uncertainty around new business as well as retention and expansion with existing customers, particularly in highly affected industries.

**Second Quarter 2020 Guidance:** Management expects revenues for the second quarter of 2020 to be in the range of \$88.0 million to \$88.6 million, representing 11% to 12% growth over the same quarter in 2019. GAAP net income per diluted share is expected to be in the range of \$0.36 to \$0.38, which assumes an effective income tax rate of 24%. Non-GAAP net income per diluted share is expected to be in the range of \$0.63 to \$0.65, which assumes non-GAAP effective income tax rate of 21%. Second quarter 2020 earnings per share estimates are based on approximately 40.8 million weighted average diluted shares outstanding for the quarter.

**Full Year 2020 Guidance:** Management expects revenues for the full year 2020 to be in the range of \$354 million to \$359 million, representing 10% to 12% growth over 2019. GAAP net income per diluted share is expected to be in the range of \$1.51 to \$1.56, which assumes an effective income tax rate of 21%. Non-GAAP net income per diluted share is expected to be in the range of \$2.46 to \$2.51, which assumes a non-GAAP effective income tax rate of 21%. Full year 2020 earnings per share estimates are based on approximately 40.8 million weighted average diluted shares outstanding.

#### Legal Notice Regarding Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements generally relate to future events or our future financial or operating performance. Forward-looking statements in this press release include, but are not limited to, statements related to: our expectations regarding our Qualys Cloud Platform innovation and the capabilities of our platform; our expectations regarding the growth and market acceptance of our Vulnerability Management, Detection, and Response application; the benefits of our strategic acquisitions; the benefits of our new products, integrations, collaborations and joint solutions; our strategy and our business model and our ability to execute such strategy; the effects of COVID-19 on our business and results of operations; and our guidance for revenues, GAAP EPS and non-GAAP EPS for the second quarter and full year 2020, and our expectations for the number of weighted average diluted shares outstanding and the GAAP and non-GAAP effective income tax rate for the second quarter and full year 2020. Our expectations and beliefs regarding these matters may not materialize, and actual results in future periods are subject to risks and uncertainties that could cause actual results to differ materially from those projected. These risks include our ability to continue to develop platform capabilities and solutions; the ability of our platform and solutions to perform as intended; customer acceptance and purchase of our existing solutions and new solutions; real or perceived defects, errors or vulnerabilities in our products or services; our ability to retain existing customers and generate new customers; the budgeting cycles, seasonal buying patterns and length of our sales cycle; the effects of COVID-19 on our business and results of operations; our ability to manage costs as we increase our customer base and the number of our platform solutions; the market for cloud solutions for IT security and compliance not increasing at the rate we expect; competition from other products and services; fluctuations in currency exchange rates, unexpected fluctuations in our effective income tax rate on a GAAP and non-GAAP basis, our ability to effectively manage our rapid growth and our ability to anticipate future market needs and opportunities; any unanticipated accounting charges; and general market, political, economic and business conditions in the United States as well as globally. The forward-looking statements contained in this press release are also subject to other risks and uncertainties, including those more fully described in our filings with the Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended December 31, 2019, filed with the Securities and Exchange Commission on February 21, 2020.

The forward-looking statements in this press release are based on information available to Qualys as of the date hereof, and Qualys disclaims any obligation to update any forward-looking statements, except as required by law.

#### **Non-GAAP Financial Measures**

In addition to reporting financial results in accordance with GAAP, Qualys provides investors with certain non-GAAP financial measures, including non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating expenses, non-GAAP operating income, non-GAAP net income, non-GAAP net income per diluted share, adjusted EBITDA (defined as earnings before interest expense, interest income and other income (expense), net, taxes, depreciation, amortization, stock-based compensation, non-recurring expenses, and acquisition-related expenses that do not reflect ongoing costs of operating the business) and non-GAAP free cash flows (defined as cash provided by operating activities less purchases of property and equipment and principal payments under capital lease). In computing non-GAAP financial measures, Qualys excludes the effects of stock-based compensation expense, non-recurring expenses and acquisitionrelated expenses that do not reflect ongoing costs of operating the business. Qualys believes that these non-GAAP financial measures help illustrate underlying trends in its business that could otherwise be masked by the effect of the income or expenses, as well as the related tax effects, that are excluded in non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating expenses, non-GAAP operating income, non-GAAP net income, non-GAAP net income per diluted share, adjusted EBITDA and non-GAAP free cash flows.

Furthermore, Qualys uses some of these non-GAAP financial measures to establish budgets and operational goals for managing its business and evaluating its performance. Qualys believes that non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating expenses, non-GAAP operating income, non-GAAP net income, non-GAAP net income per diluted share, adjusted EBITDA and non-GAAP free cash flows provide additional tools for investors to use in comparing its recurring core business operating results over multiple periods with other companies in its industry.

Although Qualys does not focus on quarterly billings, Qualys provides calculated current billings (defined as total revenue recognized in a period plus the sequential change in current deferred revenue in the corresponding period) to assist investors and analysts in assessing its operating performance.

Qualys has not reconciled non-GAAP net income per diluted share guidance to GAAP net income per diluted share guidance because Qualys does not provide guidance on the various reconciling cash and non-cash items between GAAP net income and non-GAAP net income (i.e., stock-based compensation and non-recurring expenses). The actual dollar amount of reconciling items in the second quarter and full year 2020 is likely to have a significant impact on the Company's GAAP net income per diluted share in the second quarter and full year 2020. Accordingly, a reconciliation of the non-GAAP net income per diluted share guidance to the GAAP net income per diluted share guidance is not available without unreasonable effort.

In order to provide a more complete picture of recurring core operating business results, the Company's non-GAAP net income and non-GAAP net income per diluted share include tax adjustments required to achieve the effective income tax rate on a non-GAAP basis, which could differ from the GAAP effective income tax rate. The Company believes its estimated non-GAAP effective income tax rate of 21% in 2020 is a reasonable estimate under its global operating structure. The Company may adjust this rate during the year to take into account events or trends that it believes materially impact the estimated annual rate. The non-GAAP effective income tax rate could be subject to change for a number of reasons, including but not limited to, significant changes resulting from tax legislation, material changes in geographic mix of revenues and expenses and other significant events.

The presentation of this non-GAAP financial information is not intended to be considered in isolation or as a substitute for results prepared in accordance with GAAP. A reconciliation of the non-GAAP financial measures discussed in this press release to the most directly comparable GAAP financial measures is included with the financial statements contained in this press release. Management uses both GAAP and non-GAAP information in evaluating and operating its business internally and as such has determined that it is important to provide this information to investors.
