MEDIA ALERT: Qualys to Unveil New Apps for its Cloud Platform with New Positioning, Logo and Website at Black Hat USA 2017

Also to present Best Practices for Container Security in DevOps at Black Hat, Visual Network and File Forensics tool at DEF CON 25

LAS VEGAS, July 24, 2017 /PRNewswire/ -- **Black Hat USA, Booth #899 - [Qualys, Inc.](https://www.qualys.com)** (NASDAQ: QLYS), a pioneer and leading provider of cloud-based security and compliance solutions, will unveil and showcase several new apps for its IT security and compliance Cloud Platform from July 24-29 at Black Hat USA 2017 and DEF CON 25 in Las Vegas.

WHAT: Qualys will introduce and showcase the following app frameworks along with its new corporate website, logo and positioning:

CloudView - A new app framework in the Qualys Cloud Platform for comprehensive and continuous protection of cloud infrastructure, delivering InfoSec and DevSecOps teams a "single pane of glass" view of security and compliance across cloud infrastructures. The first two apps in CloudView include Cloud Inventory (CI) and Cloud Security Assessment (CSA).

CertView - A new app framework in the Qualys Cloud Platform that enables customers to discover, assess and manage SSL/TLS certificates on a global scale, helping them prevent downtime and outages, audit and compliance failures, and mitigate risks associated with any expired and/or vulnerable SSL/TLS certificates on their business-critical systems. The first two apps in CertView include Certificate Inventory (CRI) and Certificate Assessment (CRA).

Qualys will also discuss its **new positioning**, which starts with a new website and logo refresh, plus corporate and CIO/CISO brochures highlighting the value Qualys brings to organizations. With the significant increase in performance and reach of the Qualys Cloud Platform and its Cloud Apps, Qualys is now providing customers global visibility and helping them consolidate their security and compliance stacks, while also helping them reduce costs and build security into their digital transformation initiatives:

- | Website: <https://www.qualys.com>
- | Corporate Brochure: <https://www.qualys.com/docs/corporate-brochure.pdf>
- | CIO/CISO Brochure: <https://www.qualys.com/docs/ciso-brochure.pdf>

WHERE: Attendees can view Cloud App demos and learn more about the Qualys Cloud Platform at Booth #899 in Black Hat USA 2017, Las Vegas.

WHEN: July 26-27, 2017

Black Hat USA Sponsor Session: Container Security in the World of DevSecOps

WHO: Hari Srinivasan, Director of Product Management, Qualys

WHAT: Using best practices and customer examples, this session will discuss how to incorporate security into the DevOps cycle to harden and remove vulnerabilities before a container environment is operational.

WHEN: Wednesday, July 26, 11:30am - 12:20pm

WHERE: Business Hall, Theatre A, Black Hat USA 2017

Def Con 25 Presentation: Visual Network and File Forensics

WHO: Ankur Tyagi, Senior Malware Research Engineer, Qualys

WHAT: This presentation aims to demo the effectiveness of visual tooling for malware and file-format forensics. It will cover

structural analysis and visualization of malware and network artifacts. Various techniques like entropy/n-gram visualization, using compression-ratio and theoretical minsize to identify file type and packed content, will be shown.

WHEN: Saturday, July 29, 2:40 - 3:10pm

WHERE: Packet Hacking Village, Neopolitan Ballroom and Milano VIII, Caesars Palace, Las Vegas
