## Qualys to Showcase Four Disruptive New Apps in its Cloud Platform at the Gartner Security & Risk Management Summit

### Also to present "Securing Digital Transformation to Drive Business Innovation" case study with Capital One

REDWOOD CITY, Calif., June 8, 2017 /PRNewswire/ -- [Qualys, Inc.](#) (NASDAQ: QLYS), a pioneer and leading provider of cloud-based security and compliance solutions will introduce, demonstrate and discuss several new solutions for preventing and detecting breaches across on-premises, elastic-cloud and endpoint environments from June 12-14 at the 2017 Gartner Security and Risk Summit in National Harbor, Md.

**WHAT:** Qualys will introduce and showcase solutions for:

- | **Container Security** - A new cloud-based Qualys solution that enables customers to address security for containers in their DevOps pipeline and deployments across cloud and on-premises environments.
- | **File Integrity Monitoring** - Now in public beta, this highly scalable and centralized solution reduces the cost and complexity of detecting policy and compliance-related changes mandated by increasingly prescriptive regulations such as the Payment Card Industry Data Security Standard.
- | **Indicator of Compromise Detection** - Also now in public beta, this service detects activity and behavioral changes on the endpoint and delivers customers a continuous view of suspicious activity that may indicate the presence of known malware, unknown variants, or threat actor activity on devices both on and off the network.
- | **Secure Configuration Assessment** - A new add-on to Vulnerability Management that allows customers to expand their vulnerability management program with configuration scanning capabilities and simplified workflows to assess, report, monitor and remediate security-related configuration issues based on the Center for Internet Security benchmark.

**WHERE:** Attendees can view product demos and learn more about the Qualys Cloud Platform at Booth #609 in the Gartner Security & Risk Management Summit, National Harbor, Md.

**WHEN:** June 12-14, 2017

### Track Session- SP23: Securing Digital Transformation to Drive Business Innovation (Capital One Case-study)

Capital One and Qualys will co-present on best practices for securing digital transformation to enable digital innovation:

**WHO:** Reid Shelton, Sr. Director, Vulnerability Management Operations, Capital One and Qualys Chief Information Security Officer Mark Butler.

**WHAT:** The "Securing Digital Transformation to Drive Business Innovation" is a case study with Capital One that presents effective strategies for the big shift to secure digital transformation and integrate security into the fabric of cloud, web, devices and IoT.

**WHEN:** Tues., June 13, 10:30 - 11:15am

**WHERE:** Potomac C, Ballroom Level
