Qualys SCAP Auditor 1.2 Receives NIST Certification

Qualys SCAP Auditor Helps Automate Vulnerability Management and Policy Compliance Processes to Demonstrate Compliance With FISMA and USGCB

REDWOOD CITY, CA -- (Marketwired) -- 05/28/15 -- [Qualys, Inc.](#) (NASDAQ: QLYS), a pioneer and leading provider of cloud security and compliance solutions, today announced its [Qualys SCAP Auditor 1.2](#) has been certified by the U.S. National Institute of Standards and Technology (NIST) for use by federal agencies. These agencies are required to use a certified Security Content Automation Protocol ([SCAP](#)) tool to validate that systems comply with configuration requirements defined in the United States Government Configuration Baseline (USGCB) as mandated by the Federal Information Security Management Act (FISMA).

Qualys SCAP Auditor enables federal agencies to scan and report compliance with standardized desktop security configuration requirements using a centralized, integrated solution featuring the Qualys' Software-as-a-Service (SaaS) architecture.

"Government agencies face a unique set of challenges when it comes to ensuring the security of their networks," said Philippe Courtot, Chairman and CEO for Qualys, Inc. "Qualys SCAP Auditor, built on our award-winning Qualys Cloud Platform architecture allows agencies to continuously monitor and address network vulnerabilities enabling immediate compliance with key FISMA requirements, at a fraction of the cost of deploying and maintaining traditional enterprise security solutions."

With Qualys SCAP Auditor 1.2, users can automatically discover and manage all devices and applications on the network, identify and remediate network security vulnerabilities, measure and manage overall security exposure and risk, and has been certified by NIST for the following capabilities:

- Authenticated Configuration Scanner
- Common Vulnerabilities and Exposures (CVE)
- Assessment of Windows 7 (32 and 64 bit) and Red Hat Enterprise Linux (RHEL) 5 Desktop (32 and 64 bit) The Qualys SCAP 1.2 Auditor is also compliant with SCAP version 1.2: XCCDF 1.2, OVAL 5.10, CCE 5, CPE 2.3, CVE, and CVSS 2, OCIL 2.0, CCSS 1.0, Asset Identification 1.1, ARF 1.1, TMSAD 1.0.

In addition to the SCAP certified assessment capabilities, SCAP Auditor 1.2 can process SCAP tier III content intended for the following systems: Windows 7 (32 and 64 bit), Windows XP (32 bit), Windows Vista, Windows 2008, Windows 2012, RHEL 5 (32 and 64 bit) and most Linux distributions.
