Tech Mahindra Selects Qualys to Expand Global IT Security Portfolio

Partnership Will Enhance Tech Mahindra's Managed Security Offerings and Reduce Compliance Costs for Customers Around the World

REDWOOD CITY, CA -- (Marketwired) -- 09/25/14 -- [Qualys, Inc.](#) (NASDAQ: QLYS), a pioneer and leading provider of cloud security and compliance solutions, today announced a strategic partnership with [Tech Mahindra](#), a multinational software services firm, to deliver industry-leading security and compliance solutions to customers around the globe.

Tech Mahindra will integrate the [Qualys Cloud Platform](#) into its existing security operations infrastructure to help support customers in implementing effective cyber intelligence and security transformation plans across IT and business functions. Customers will also have access to Qualys' integrated suite of security solutions such as Vulnerability Management, Zero Day Risk Analyzer, Continuous Monitoring, Web Application Security and Web Application Firewall.

"Qualys has a proven reputation in the security industry and we believe their comprehensive suite of cloud Security solutions will help bridge the gap between our existing portfolio and security operations center," said Lucius Lobo, Global Head Security Services at Tech Mahindra. "This partnership will not only deepen our security expertise, but more importantly create additional value for customers by enabling them to protect their perimeters from potential cyber threats."

Tech Mahindra joins the Qualys Managed Service Providers (MSPs) program, which enables MSPs and hosting partners to ensure security by leveraging Qualys' SaaS-based platform either standalone, or as part of an integrated suite of managed security services.

"Tech Mahindra has a strong global presence with a comprehensive portfolio of managed security and consulting services," said Philippe Courtot, Chairman and CEO for Qualys, Inc. "We are proud Tech Mahindra has selected Qualys to help provide organizations around the world both large and small, with a continuous, effective and affordable approach to security and compliance."

Qualys' cloud-based delivery model is ideally suited to meet the needs of MSPs, to create frameworks and vertical-based cyber security offerings enabling security operation centers (SOCs) to secure customer applications and Infrastructures. Additionally, Qualys supports a variety of branding and customized reporting options, while the straightforward, extensible APIs make it easy to integrate its solutions with MSP frameworks, tools and customer portals.
